
Service Alert

Date: January 03, 2017

Alert No.: 0301171

Subject: Spinner Driver for the 977 Wafer Cleaner

Affected Systems

Peripheral equipment: 977 Wafer Cleaner

Description

Up until now, the part number for the spinner driver of the 977 Wafer Cleaner was the same as that used for the 7200 spinner and X-axis (13600-0060-000).

This caused confusion and mistakes, causing customers to receive the wrong driver and software combination.

Handling

We have created two kits for the spinner driver of the 977 wafer cleaning system:

- 977 8" Spinner driver installation kit – P/N 00977-0934-200-00
- 977 12" Spinner driver installation kit – P/N 00977-0934-300-00

Both kits include the required driver and software.

Practice

When ordering a spinner driver for the 977 wafer cleaning system, check the type of system (8" or 12"), and order the driver according to the above part numbers.

For the 7200, spinner and X-axis driver, continue ordering driver P/N 13600-0060-000.
