

Discontinuation of 7203 (7200-300 2" & 4")

ADT will discontinue the manufacture and sale of the 7203 models effective Feb 2026.

To ensure continued best-in-class customer support, ADT will provide service and spare parts for seven years for all 7203 models. Additionally, we will continue sales of standard accessories, options, retrofit kits, and service for customers using these systems.

The new machines model replacements are:

7300 series, Standard machine up to 12" (round and 9" X 12")

- 2" configuration, 7302 (Replacing the 7200-300 2")
- 4" configuration, 7304 (Replacing the 7200-300 4")

The new 7300 Series includes:

- **Support 8", 12" and 9" X 12" work piece**
- **Support 2" and 3" blades O.D. or 4" spindle with 5" blade O.D.**
- **Large vacuum canister for 30% air consumption savings**
- **Support up to 10mm thick products**
- **Large cleaning station supporting chuck up to 9" X 12"**
- **Low Vibration Spindle for best cut quality**

Depending upon your current machine software version, 7203 recipes will be transferable to the new models 7300 series, (Pls consults with the local customer support).

ADT will honor any outstanding Model 7203 quotations that are still under valid conditions.

Please review this notice and contact ADT Marketing / Sales staff if you have any questions about this program.
